UNIVERSITY OF FLORIDA DIG PERMIT

Agency/Organization _____ Telephone _____

Address _____

Contact (Name/Title) _____

Type of work: Digging Trenching Directional/Soil boring
 Excavating Tree Spades Tent Staking

Location of Work: _____

By signature below, the applicant for this Permit assumes responsibility for proper barricading, lighting, and utilizing safety precautions as required by the Florida Industrial Commission and Florida D.O.T. Applicant also acknowledges receipt and understanding of the handout entitled "Dig Permit Procedures". The applicant must visually locate all utility lines if ground penetration is to take place within six feet of a marked utility line. If the applicant is going to engage in directional boring, the applicant must visually locate all utility lines unless the drill path reaches and maintains a depth of ten feet more than six feet away from any marked utility. The applicant also assumes financial responsibility for the repair of any damage caused by the applicant to utility lines or other facilities regardless of whether a clearance review as indicated as required on the dig permit form or how precisely any underground line was located in the field. The applicant further acknowledges that it is the applicant's responsibility to fully restore all landscape features such as turf, mulch, trees, shrubs, sidewalks, roads, curbs, pavement markings, and irrigation to original condition. The applicant also assumes financial responsibility for the repair of any damage caused by the applicant to utility lines or other facilities if the steps given in the "Dig Permit Procedures" are not followed.

Signature of Applicant: _____ Date: _____

Sunshine State One-Call (811) Ticket No _____

By signing this document I agree to the following requirements for performing work on University of Florida property.

I will abide by all requirements of the OSHA 29 CFR 1926 Subpart-P Excavations.

For all excavations anticipated to be 4 feet in depth or greater, the competent person(s)* must be named and listed below. A record of daily inspections will be maintained for all trenches requiring a competent person.

Open excavations, regardless of depth, will be adequately guarded to prevent injury to the general public from falls. Barrier tape is NOT permitted to be the sole barricade. Webbed fencing, chain link fencing or wooden barricade stanchions must enclose all open areas surrounding the trench or excavation.

The excavations should be filled as soon as possible following completion of work. On extended projects the trench or excavations should be filled as work progresses.

Excavation spoils shall not block emergency exits, access or equipment for facilities.

Competent Person: _____ Title: _____

Competent Person: _____ Title: _____

Competent Person: _____ Title: _____

*Competent person means one who is capable of identifying existing and predictable hazards in the surroundings, or working conditions that are unsanitary, hazardous, or dangerous to employees, and who has authorization to take prompt corrective measures to eliminate them. The competent person has authority to take prompt corrective measures to eliminate existing and predictable hazards and to stop work when required. A competent person should have and be able to demonstrate the following:

Training, experience, and knowledge of:

- soil analysis
- use of protective systems and
- requirements of 29 CFR 1926 Subpart P.

Ability to detect:

- conditions that could result in cave-ins, failures in protective systems, hazardous atmospheres,
- other hazards including those associated with confined spaces.
